

Preparing your site for the Frosmo Platform

Before you start using the [Frosmo Platform](#) on your site, Frosmo deploys a [basic feature setup](#) to the site. For Frosmo to deploy the setup, however, the site must be ready to be integrated with the platform. Preparing the site is a joint effort between you and Frosmo. The exact steps required to prepare your site depend on the site's business focus.

The following figure outlines the basic preparation steps shared by all sites.

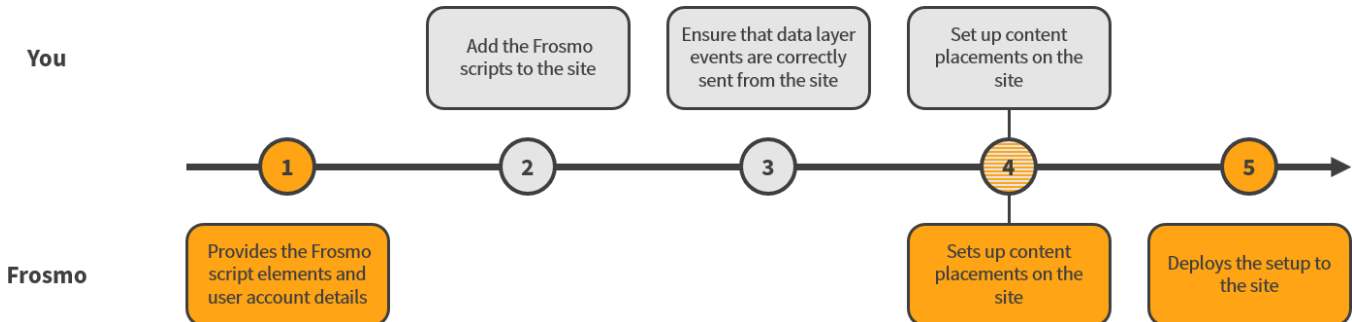

Figure: Basic steps for preparing your site for the Frosmo Platform (click to enlarge)

The following guides walk you through the steps of making sure your site is ready. Choose the correct guide for your site.

- [Preparing your iGaming site](#)
- [Preparing your retail site](#)

To get the most out of the integration between your site and the Frosmo Platform, see [Best practices for integration](#).
