

Activating and deactivating the modification

Activating the modification makes it available on the site. You can view the activation status of the modification in the **Basic settings** view or in the modifications list.

- [Activating the modification](#)
- [Deactivating the modification](#)

Activating the modification

To activate the modification:

1. In the Frosmo Control Panel, in the sidebar, select **Modifications**.
2. In the modifications list, [find the modification](#) you want to activate, and click the modification name.
3. In the **Basic settings** view, at the bottom, click **Activate**.

The screenshot displays the 'Basic settings' interface for a modification titled '68511 / Basic settings: Home page - Hero banner'. The interface is divided into several sections:

- Targeting:** A section with a yellow target icon. It states 'The modification targets all visitors.' and provides instructions on how to define targeting for specific visitor groups, with a 'Learn more' link and a 'Define targeting' button.
- Placement*:** A section with a red location pin icon. It shows 'Selected placement: Home page - Hero banner' and a 'Select placement' button.
- Content*:** A section with a purple speech bubble icon. It lists two variations: 'Variation 1 - Template: Hero banner' (Active, 90%) and 'Comparison group' (Active, 10%). Each variation has a three-dot menu icon.
- Right-hand sidebar:** Contains several sections: 'Status' (Active), 'Case' (Personalization), 'Description' (with a 'Define description' button), 'Schedule' (21.03.2022 10:58 - No end date, with a 'Define schedule' button), and 'Advanced settings' (with a 'Define settings' button).
- Bottom right:** Features a 'Close' button and a prominent orange 'Activate' button.

4. Check and, if required, edit the modification schedule.

Activate modification?

You are about to activate the following modification: **Home page - Hero banner**

Schedule
21.03.2022 10:58:15 - No end date
[Define schedule](#)

Depending on the schedule, the modification will be **available to all targeted users**.

[Cancel](#) [Activate](#)

If the modification has [test mode](#) enabled, the activation prompt notes this.

Activate modification?

You are about to activate the following modification: **Home page - Hero banner**

Schedule
21.03.2022 10:58:15 - No end date
[Define schedule](#)

The modification will be activated in **test mode** for previewing. After previewing, disable test mode in advanced modification settings to make the modification available for all targeted users. [Learn more](#)

[Cancel](#) [Activate](#)

5. When you're done, click **Activate**. The modification is activated.

Depending on the schedule defined for the modification, the modification may not be immediately available on the site.

Deactivating the modification

To deactivate the modification:

1. In the Frosmo Control Panel, in the sidebar, select **Modifications**.
2. In the modifications list, [find the modification](#) you want to deactivate, and click the modification name.
3. In the **Basic settings** view, at the bottom, click **Deactivate**.
4. Click **Deactivate**. The modification is deactivated.
