

# Recommendations

For recommendations to work on a site, the recommendation feature must be enabled for the site. To enable the feature, if it's not already enabled, contact [Frosmo support](#).

Learn how to create [recommendations](#) in the Frosmo Control Panel.

- [Creating recommendations](#)
- [Recommendation strategy workflow](#)
- [Creating and editing a recommendation strategy](#)
- [Duplicating a recommendation strategy](#)
- [Removing a recommendation strategy](#)
- [Recommendation examples](#)

You can also [view recommendation statistics](#) in the Control Panel.

If you're a developer, or if you just want to learn about the more technical aspects of working with recommendations, such as the Recommendations API, see the [recommendations developer guide](#).
