

Getting Started

The Frosmo Platform is a solution for improving website functionality and personalizing user experiences. You can use the platform for:

- Data-driven, continuous front-end development
- User experience optimization through personalized visitor journeys
- Making predictions based on data combined from different sources using machine learning algorithms

For more information about the platform and its components, see [Introduction to the Frosmo Platform](#).

To get started with the platform:

1. [Set up the Frosmo Platform for your site.](#)

Learn how to add the Frosmo scripts to your site depending on your site structure.

2. [Configure your user accounts.](#)

Learn how to create and manage user accounts, and how to configure your site in the Frosmo Control Panel.

3. [Set up data tracking.](#)

Learn how to set up conversion and other types of data tracking on your site.

4. [Set up integrations.](#)

Learn how you can integrate the Frosmo Platform with your analytics tools, marketing automation systems, and data management platforms.

5. [Get started with development.](#)

Learn how to create your very first segment, placement, and modification.
