

Reference

The URL of the Graniitti API reference depends on your Frosmo Platform instance.

To access the API reference for your platform instance:

1. In the Frosmo Control Panel, select **Utilities > Frosmo APIs**.
2. In the **Graniitti API** section, click the reference documentation URL.

Your Graniitti API URLs

Base URL for requests: **<https://graniitti.inpref.com/v0/>**

Reference documentation **<https://graniitti.inpref.com/api-docs/>**

The API reference is built with Swagger. For more information, see the [Swagger website](#).
