

Entering a workspace

To enter a workspace:

1. In the Frosmo Control Panel, select **Workspaces > Overview**.
2. In the workspaces list, click the name of the workspace that you want to enter.

While you're in the workspace, the Control Panel menu provides a direct link to that workspace (**Workspaces > Workspace <ID>**).

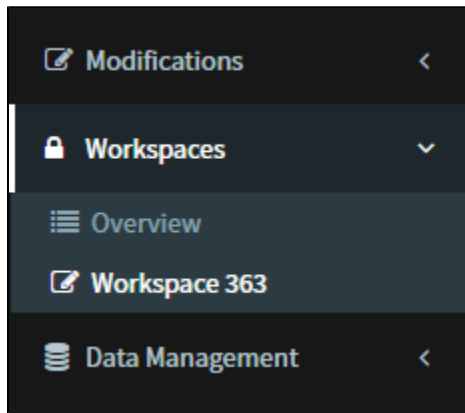

Figure: Entering a workspace directly from the menu

If you enter another workspace, the menu link updates to point to that workspace. The menu link always points to the workspace you're currently in.
