

User Guides

The user guides help you develop and manage your site and monitor its performance using the Frosmo Control Panel. The guides also introduce practical use cases for working with the Control Panel.

Before starting with development, get familiar with the typical development workflow and how different Frosmo Platform features fit in it. For more information, see [Planning visitor journeys](#).

- [Data tracking](#) solutions allow you to track events and other data on your site:
 - [Conversion definitions](#) allow you to set up conversion tracking in the Frosmo Control Panel.
 - [Custom actions](#) allow you to track visitor actions and states that are not basic modification events, conversions, transactions, or product views.
- [Development](#) guides show you how to develop and manage your site, improve its user experience, and create personalized visitor journeys using the Frosmo Platform:
 - [Segmentation](#) allows you to target specific subgroups of visitors with content that matches the interests and needs of those groups.
 - [Placements](#) determine where modifications are placed on your site.
 - [Modifications](#) are real-time changes to web pages designed to personalize or otherwise improve the user experience of your site and guide visitors to complete conversions.
 - [Templates](#) allow you to define web content once and then reuse that content across multiple modifications on your site.
 - [Triggers](#) allow you to detect particular events on a web page and take predefined actions based on those events.
 - [Recommendations](#) are dynamically generated content predicted to appeal to visitors.
 - [Email recommendations](#) allow you to show recommendations in emails.
 - [Workspaces](#) allow you to safely develop and test features in your production environment without affecting the live content of your site.
- [Testing](#) tools help you test and debug your visitor journeys and the features used to build them:
 - [Frosmo Preview](#) allows you to preview and debug how the Frosmo Platform is working on your site.
 - [Test mode](#) allows you to show modifications only to certain visitors for testing purposes.
 - [Testing in incognito mode in Chrome](#) shows you how to allow third-party data in incognito mode in Google Chrome, so that you can test sites that uses shared context.
- [Analytics](#) allow you to monitor the performance of your site through statistics:
 - [Conversion statistics](#) allow you to monitor the number of conversions driven by the Frosmo Platform, and the revenue generated by the conversions.
 - [Modification statistics](#) give you a detailed view of the events and metrics tracked for modifications.
- [Troubleshooting](#) guides help you when something goes wrong:
 - [Checking site status](#) shows you how to check whether the Frosmo Platform is receiving data from a site, and whether the data tracking set up for the site is working as expected.
 - [Common problems and solutions](#) shows you how to solve the most common problems that you might run into when working with modifications and other features.
 - [Console debugging with Frosmo Core](#) shows you how to debug modifications and other features on your site by using Frosmo Core in the browser console.
- [Administration](#) instructions help you configure your site and manage users:
 - [Sites and users](#) guide shows you how to create and manage sites and users.

Version history

Version	Publication date	Description
11.1	2021-10-11	Updated Creating and editing a recommendation strategy .
11.0	2021-08-17	Moved feature introductions to Platform & Features , and restructured the guides to reflect the move.
10.0	2021-07-12	Restructured and updated the data tracking and basic modification statistics documentation to reflect similar updates elsewhere in the documentation portal.
9.8	2021-06-21	Updated various topics of the modifications guide to conform to the UI changes introduced by maintenance release 2021-06-21 .
9.7	2021-05-31	Updated the recommendations guide: <ul style="list-style-type: none">• Creating and editing a recommendation strategy• Example: Creating the strategy and modification for a recommendation• Example: Duplicating a strategy and modification to create a new recommendation Updated the email recommendations guide: <ul style="list-style-type: none">• Creating and editing an email recommendation• Example: Recommending most viewed products in a marketing email
