

About this documentation

The getting started documentation is primarily intended for customers whose sites have a [basic feature setup](#) for the [Frosmo Platform](#).

If your site has a custom setup, you will still find sections of the documentation useful.

What to read?

You're new to the Frosmo Platform	Introduction to the Frosmo Platform Key features and concepts Basic feature setup
You're a developer responsible for making sure your site is ready for a basic feature setup	Preparing your site for the Frosmo Platform
You want to learn about the Frosmo Control Panel	Logging in to the Frosmo Control Panel Introduction to the Frosmo Control Panel
You want to develop your site's basic feature setup further on your own	Basic feature setup Modifications overview Creating personalized content
You want to preview and troubleshoot how the Frosmo Platform is working on your site	Previewing content and troubleshooting issues
You want to learn about integrating your systems and services with the Frosmo Platform	Setting up system and service integrations
You want to manage your own user account or create additional user accounts	Setting up user accounts
